

## Osmond Karim

Who says dreams don't come true?

As part of South Sweden Flight Academy, I have the pleasure - through our students and staff - of interacting with a lot of fun, smart, dynamic and ambitious people and I am constantly struck by the sheer stamina and resolve they all exhibit on a day to day basis. Most have always dreamt of flying. Some have followed their dreams and continue to do so while others are just at the beginning of their journeys. Some will have to overcome

academic, financial, geographical, emotional or intellectual barriers in order to get where they want to be. Most will, at some point, think it impossible to do what they want to do yet an overwhelming majority will keep on working, keep on learning, growing, laughing and crying because they all know what awaits them at the end of it all. That long held dream.

There is nothing more wonderful than realizing ones dreams. There is nothing more wonderful than witnessing that moment when someone sees that all is possible, that dreams do come true and that their lives are for ever going to be changed by what they have just accomplished.
